

Chesterfield Township ~ Community Garden ~

Rent a plot to grow your own vegetables.

The Chesterfield Township Environmental Commission is investigating if individual households have a desire to participate in a Community Garden. A Community Garden is an area usually located in close proximity to residences where a household can be assigned a specific planting plot in order to grow their own fruits and vegetables. If you or someone you know would be interested in taking part in such an opportunity, please email the Environmental Commission at aggie@chesterfieldtwp.com by October 31, 2022. Respondents will be notified once we determine the feasibility of the project over the winter months.

Suggested plot sizes and fees for 1 year:

24ft X 18ft	\$50
12ft X 18ft	\$25

The garden location(s) have not yet been identified and are still pending based on the level of interest from the community.

Below are photo examples of garden plots in a Community Garden elsewhere in Burlington County.
